Asbestos Dump

William K. Sawyer, Attorney
Waste & Toxic Substances Branch

George Pavlou, Section Chief
Hazardous Waste Sites Branch

This memorandum is to make sure you and Bob McKnight are aware of the following:

1. A 6/29/83 memo from Lucero announced \$400,000 was available for an enforcement RI/FS. The memo noted, however, that a Scope of Work and Action Memo had to be developed before funds could be obligated.
2. New Jersey DEP is interested in having a limited sampling program done at three asbestos sites near the Millington asbestos dump. DEP wonders what EPA's plans are.

I am attaching copies of the 6/29/83 memo and a Record of Communication of my telephone conversation with George Klein of NJDEP on 8/3/83.
